Helpful Guidance & Important Information

When planning your trip feel free to call us for advice

While we have tried to include as much information in our catalogues and website all too often, especially for group bookings, there can be more questions than answers. Through direct and personal contact we will answer all of your questions and help build and tailor make a package to suit your requirements.

Offers & Booking

We do not do standard packages. All of our holidays are tailored to suit the individual and their needs. Upon request either through our website, e-mail or by telephone we will put together an offer which matches your needs. To avoid any misunderstandings this will be confirmed by e-mail or by fax, although availability may alter prior to booking.

When booking your holiday a final copy of the Contract will be sent to you by e-mail or fax confirming your booking.

Golf Tee Times

While we will do our utmost to accommodate your specific requirements for tee times, during busy periods this may not always be possible. In this instance we will offer you the best times available, and you will be advised of these. However from time to time a golf course may be closed for remedial work, in which case we will find you a suitable alternative. This is outside of our control and we ask only that you show patience and understanding should this occur.

Please note that all of the golf courses are played in 4 ball format, and you may be required to play alongside others. This is non-negotiable and is common practice throughout the world for holiday golf.

Air Flights

Where flights are not part of your package we are happy to source these and book them on your behalf. In which case a fee of €20 per ticket to cover administration will be charged.

Airport & Security Charges

As of January 2011 airport and security charges as well as fuel surcharges are include in in the price. However should any unforeseen internationally accepted charges be added prior to travel then these, where necessary, will be at your cost.

Travel Documents

These will be sent to arrive with you 10 days prior to travel, subject to full and final payment being received.

Travelling with Golf Clubs

Depending on your airline will depend upon the rules and regulations for this. If your flight arrangements are being made through us we will advise you if any extra payments are required for golf equipment, etc. and what if any restrictions there are.

Visas

For many nationalities a visa is required to enter Turkey. This must be paid online and downloaded and printed prior to travel. For more information and to purchase see: www.evisa.gov.tr

Hotel Check-In & Check-Out

According to international practice normal check-in is from 15:00 and check-out is before 12:00. Exceptions are possible but this will be between you and the hotel upon arrival and before departure. For a nominal fee and subject to availability some hotels will allow you to keep the room for a few more hours. However be aware the hotel may not be able to confirm this until the very end of your stay.

Hotel Information

Please note that during the winter months many of the outdoor pool and catering facilities may be closed. This also may include some of the evening a la carte restaurants.

Special Requests

These will be forwarded to the hotel and golf club as required but will not form part of the Contract.

Golf Shoes

All golf clubs require you to wear golf shoes with soft spikes only.

Golf Clothing

All of the golf clubs require you to wear acceptable golf clothing on the course and practice range. Jeans, t-shirts, football shirts, beach shorts, and for men shirts without collars are not acceptable. Short and ankle length socks are.

Handicap Certificate

Some golf courses may require a handicap certificate to be presented when checking in. For this reason you are advised to bring one. Any false declaration of handicap is at the player's own risk.

Antalya Golf Club

TURKEY / BELEK

Pasha Golf Course

At 5731 metres (just under 6,300 yards) the par 72 Pasha Course would at first glance appear to be quite a gentle stroll in the forest. However with some strategically placed bunkers, tricky dog legs, lakes and undulating greens do not underestimate its degree of difficulty. The course is a good test of golf for players at all levels and playing from the tee appropriate to ability will enhance the enjoyment.

PGA Sultan Golf Course

Designed by leading architects European Golf Design in association with design consultant and Senior Tour Professional Davis Jones this par 71 course is 6477 metres (over 7,000 yards). TURKEY / BELEK

Designed by Colin Montgomerie, one of Europe's best ever players and 7 times winner of the European Order of Merit, the course has been carefully designed to be played and enjoyed by all golfers, whatever their ability.

Montgomerie has used his experience to craft a course which is sympathetic to its natural environment but is capable of hosting world class tournaments. Such was his success in achieving this that "The Montie" as it is referred to locally, hosted the Turkish Airlines Open 2013-2015, one of the most prestigious tournaments on the men's European Tour.

The Montgomerie Maxx Royal is a full member of the network of golf courses which comes under the umbrella of European Tour Destinations.

The Sueno Deluxe opened in 2015, is at its name suggests, geared towards the luxury end of the market. Sitting alongside the beach and with a huge pool area and various smaller water features with their fountains that dance to music and light in the evening, the hotel is perfect for those lazy holidays.

The choice of rooms varies from large standard to luxury suites and villas including a private pool and at each level the decoration, while different, is warm and homely. The large buffet area is modernistic and bright and yet achieves a welcoming atmosphere from where you have a selection of differently decorated dining areas both inside and outside.

The hotel has its own pier stretching out into the sea from where you can dive and swim or just soak up the sun. And for the more active, both young and old, the hotel has its own aqua park, tennis courts and even two golf courses, so you will never be at a loss for something to do.

For the conference market Sueno Deluxe has one the largest conference facilities in the region, capable of hosting 3,500 delegates in one room.

Deluxe Suite

Designed by PGA Design Consulting two wonderful courses sitting alongside each other with all four 9's returning to the hotel clubhouse, making for a spectacular setting. This has arguably become one of the most photographed views in golf, anywhere in the world.

The Pines Course, by far the longer one, is a true championship golf course and the front 9 especially, grabs the players' attention and demands full concentration from the outset.

The Dunes Course, has easier starting holes, but do not be lulled into a false sense of security. After a gentle opening there are some tricky holes to be mastered. And on the 18th hole watch out for the island green.

Both courses have been designed to create a 'links' type effect without being by the sea.

The ProGolf Tour (EPD Tour) regularly open their season here.

Riu Kaya Palazzo Golf Resort

TURKEY / BELEK

Palazzo Suite

For the discerning client the Riu Kaya Palazzo Golf Resort opened in 2013 with 639 rooms varying in size from 40m2 to 200m2 for the three VIP villas on the seafront.

The hotel also has a summer entertainments programme with many big names from Europe coming to entertain the guests.

The large spa and wellness centre has been designed in the Ottoman style successfully combined with some Finnish and Russian characteristics.

Kaya Eagles Golf Club

TURKEY / BELEK

Designed by the well known golf architect David Jones, and affiliated to the Eagle Charity Golf Club in Germany, the course offers a wonderful challenge to holiday golfers of all abilities.

The course is beautifully laid out with some lovely shorter par 3's and 4's than those found on other courses in Belek, but with some strategically placed bunkers.

There is also an element of risk and reward on the longer holes. So whether you take on that long second shot into the green or lay up short of the water with an easy approach, the decision is yours.

Lykia Links Antalya

TURKEY / BELEK

With approximately only 250 seaside links golf courses in the world Turkey and Belek can now join this unique group with the Lykia Links.

GOLF IN CYPRUS

Cyprus as a holiday golf destination is relatively new and only recently has started to attract a growing number of visitors coming to enjoy year round golf in almost perfect conditions through all four seasons.

By far the best place to stay and play is Paphos on the south of the island. With four championship golf courses offering visitors and guests the chance to experience more than one course without having to travel far, this is an ideal introduction for sampling what is very much an up and coming golf destination.

Minthis Hills Golf Club built in 1994 and the oldest in Cyprus is now complimented by the spectacular Aphrodite Hills and more recently the Nick Faldo designed Elea Estate. And a short drive away is the Secret Valley Golf Club. All four courses are designed and built to challenge golfers at all levels and to enhance the pleasure, all of them have been naturally built into the landscape offering some dramatic scenery and views while playing. A few other courses are spread throughout the island and even more are planned, but this is an 'early day's adventure' into what is a new golfing territory.

Luxury Suite

The golf club also offers the very best of facilities for practice, learning or improving under the guidance of fully qualified PGA Professionals. There is also a 3-hole academy course ideal for those taking their first steps on to a golf course itself. Buggies are included with every round on the championship course giving golfers the opportunity to absorb the stunning natural beauty of the surrounding area whilst making their way around this extensive and dramatic layout.

Minthis Hills

CYPRUS / PAPHOS

Set in the historical grounds of a 12th century monastery Minthis Hills is the oldest golf course in Cyprus.

Originally designed by Donald Steel who was famous for trying to direct play to all points on the compass, the course was recently updated and further improved by Tom Mackenzie and Martin Ebert, who have worked on four out of nine of the courses of The British Open. Minthis Hills, as well as being a resort course is also a Members Club with a number of open tournaments being played through the whole year including the summer where at an elevation of 550 meters there is a cooling breeze off the Troodos Mountains.

With its own Academy and full PGA qualified Head Professional the club offers lessons at all levels. Of special mention is the 5-day package for beginners wishing to try golf for the first time and by the end of which participants can qualify for a 'Certificate of Competence'.

Elea Estate

CYPRUS / PAPHOS

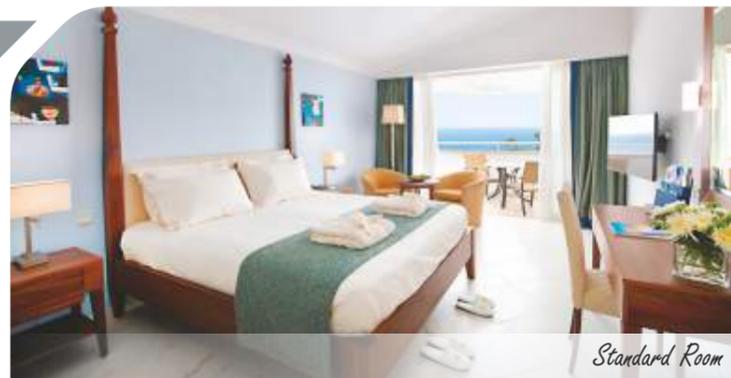

Situated at the heart of the prestigious Eléa Estate in Cyprus, Eléa Estate Golf Club offers world-class golf in a stunning setting.

The Par 71 course, designed by the legendary Sir Nick Faldo, has been created to challenge golfers of every level and incorporates natural features with stunning views of the Mediterranean. Skill, strategy, precision - and maybe a little luck - are needed if you're to be victorious here but however you play or score you are promised a pleasantly memorable experience. The Academy with all the latest state of the art facilities and headed by two PGA Professionals offers the opportunity for learning and improving at all levels. As well as a driving range with target greens and bunkers there is a landscaped short game area and putting green.

Visitors can also hire clubs, which is especially useful to those wanting to try golf for the first time. The ProGolf Tour (EPD Tour) regularly open their season here.

The Olympic Lagoon Resort is a luxury 5 star hotel located in Paphos operating on an all-inclusive basis. The hotel caters for and offers family entertainment for all ages but also provides quieter areas for adults only.

The hotel has a huge selection of bars and restaurants with a choice of various culinary delights offering guests a different dining experience each day. There is a choice of rooms all of which come with the usual facilities of a hotel of this stature, as well as an adults only wing.

The Hotel is built alongside the sea and is only a short walk from its sister, The Alexander The Great, which is a 4 star hotel and can be booked on a HB+ or FB+ basis. The + means drinks are included with meals.

As with any hotel first impressions count and from check-in to your room, which is decorated in a modern style the tone of any stay here is already well under way. It is for this reason the Susesi has hosted many very high profile international conferences, where delegates are separated with full privacy from holiday guests during working time yet can easily relax and integrate during leisure time.

Following the theme of the hotel are the gardens, where a walk through them and down to the beach is beautiful in itself. No need to rush. Take time to admire and enjoy the variety of the flowers, bushes and trees and if you do have to work where better than to enjoy some 'thinking' time. The Susesi has a variety of conference facilities capable of hosting from 10 – 2,500 people.

Situated very close to the airport and only a short distance to the city of Antalya, Titanic Beach Lara offers a combination of choice both for holidays and conferences.

With its unique ship style architecture, visitors will of course remark upon and more importantly remember their stay here, and especially in the congress world, when making an impact is very important, the hotel's style will definitely help achieve this.

All the accommodation is beautifully appointed and perfect for a relaxing holiday or when working as a conference delegate and all needs are catered for, whatever the room or suite selected.

As well as all the usual leisure and entertainment to be found in a hotel of this quality, the Titanic Beach Lara has a number of conference suites catering for anything from 10 people to 1,500 people.

Standard Room

When a hotel is renowned for its family atmosphere, not only for its guests but among its staff, you know you are staying somewhere homely where your needs are genuinely being looked after as much as possible.

Ela Quality has been successfully combining its family holiday environment and expanding this into the corporate market, where conference delegates and visitors, who are maybe used to being away, still miss the comforts and intimacy of home.

With a choice of eleven meeting rooms varying in size, the hotel has proudly hosted a number of 'blue chip' companies and their conferences.

With a wide choice of luxuriously designed rooms, suites and villas, everyone staying at the Ela Quality will find suitable accommodation, to meet the needs of either a family or corporate leader.

SPORTS

To play something special, go somewhere special.

With its excellent sports facilities Belek has become a major destination for all kinds of international sports tournaments.

With its Mediterranean climate the area is also home to many professional sportspeople and teams for winter training camps.

The training facilities in the area are recognised as being second to none.

Professional Travel has played its part in arranging and organising many of these and would be an excellent partner for you and your organisation.

Football

Antalya and especially Belek has become home to '000's of football clubs from all over Europe and more recently India who use the area as a base for winter and pre-season training.

Many of the hotels in the area have their own training facilities and most importantly full size quality football pitches. All of these are maintained to a level matching the very best of those played on week in and week out in the Premier League, Bundesliga, Serie A and Super Lig.

Especially in winter during winter close down and 'international weeks' it is very common to see famous teams and famous faces training and playing practice matches on many of the pitches in and around Belek. You may even bump into some of them on the golf course.

Such is the variety of facilities in the area, the same luxury is very affordable to all levels of football clubs to train, play and bond like their professional and famous colleagues.

Club Mega Saray / Tennis Courts

Tennis

While Belek is best known for its golf courses, another sport which is becoming just as popular is tennis. Almost all of the hotels in the area have at least one court, and quite a few others have specialised in this market, offering within their grounds, a large number of courts, some of which are floodlit.

Throughout the whole year the courts are in regular use for coaching, practice, and tournaments and it is a rare week when some national representative group is not in town practicing or competing. Belek also plays host to a tournament on the ITF Tennis Pro Circuit and its Futures Category.

Swimming

With a shortage of private swimming facilities never mind full sized Olympic swimming pools, suitable training for competitive swimming is becoming harder to find. And all too often times are restricted to accommodate the needs of the casual swimmer.

In Belek there are a number of full sized Olympic swimming pools, which are heated. Some are indoors and others outdoors, meaning training is possible all year round.

The pools are professionally set up and include the small diving boards for entering the water and the lanes can be segregated, the same as in competition.

This is a relatively new market but growing sport for Belek, as the hotels will work with each group in defining a training programme, taking into account the times and needs of the swimmers and closing it off to the public.

Belek is now the first choice for many clubs and countries as their overseas dedicated swim training base. This includes the German swimming team.

Gloria Sports Arena

General Sports Facility

In 2014 the Gloria Sports Arena opened in Belek.

This is a state of the art 'all sports complex' with some of the most sophisticated and modern training facilities to be found anywhere in the world.

Being able to cater for something like 50 indoor and outdoor sports including track and field events of athletics, swimming and diving, boxing and weightlifting, tennis and football, gymnastics and basketball, the Gloria Sports Arena has become the training base for many athletes preparing for the Olympics in Rio in 2016, including the German Olympic Team.

With the science of sport's training, the needs of a special diet and the recovery programme of injured athletes, almost everything is available and affordable to the modern amateur and professional athlete.

DISCOVER TURKEY

Turkey is a country full of culture and natural beauty. It would take a lifetime to see it all but Professional Travel have created a concept for tourists to discover and appreciate some of the key points of interest, which will give a flavour of the country.

Three cities in one holiday including Istanbul, Antalya and Capadocia. There is no fixed programme and this is tailored to suit the timescale and requirements of each guest. However at least 9 - 11 nights is recommended. How it is planned and in what order each city is visited is the client's choice.

When travelling by plane our recommendation is that you stay as a minimum:

Istanbul	3 - 4 nights
Antalya	3 - 4 nights
Capadocia	2 - 3 nights

Professional Travel will make all the arrangements on your behalf including:

- Hotels to your standard of requirements
- Mode of transport between each destination - plane, bus or car
- Arranging specific tours
- Fully licensed personal tour guide if required

Istanbul

A city spanning two continents and the gateway from Europe to Asia. The best way to see and experience as much as possible is to take one of the regular sightseeing tours, which run daily.

The choice is vast but a must see on any first trip to Istanbul is the Blue Mosque, Topkapi Palace and the Dolmabahçe Palace. Also a visit to the Grand Bazaar is essential, as well as a boat trip on the Bosphorus.

Titanic City Taksim

Titanic Port Bakırköy

Antalya

Both the name of the region and its capital city, Antalya is on the Mediterranean coast in the south of Turkey. Historically the area dates back to Roman times and many of the cities and structures they built are very well preserved.

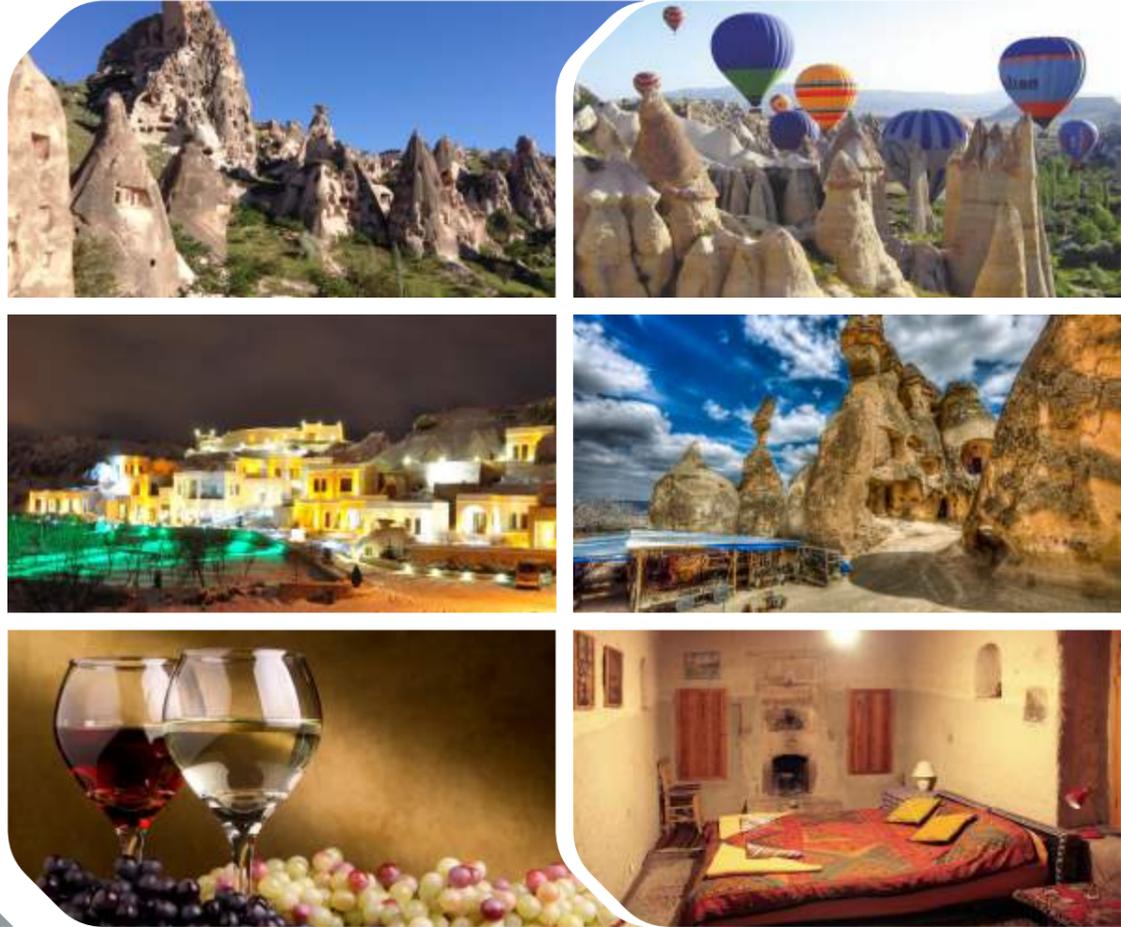

For example every year the 2,000 year old Aspendos Theatre, still holds summer concerts in its amphitheatre. For those looking for a rest, relax and enjoy the sunshine on one of the many blue flag beaches. Or even play a round of golf.

The Temple Of Apollo

Cappadocia

A place of history, natural beauty and wonder. The area is famous for its volcanic rock formations, which eroded into pillars and were then carved out to make homes, churches and monasteries. The most popular way to see the "chimney pots" of Cappadocia is by hot air balloon.
